HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling invented by H B Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongue to all vehicles that has ever been used

It fastens without bolt or screw and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient, safe and secure

It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and recommend it to all in all cases. We consider it far superior to the Brewster Patent heretofore considered the best in use

Sandwich Island Wanderings

THE HAWAIIAN KINGDOM—ITS PROSPECTIVE ANNEXATION—MORE THAN HALF AMERICANIZED ALREADY IN RELIGION, EDUCATION AND COMMERCE—THE LAST OF THE KAMEHAMEHAS—VALUE OF THE GROUP COMMERCIALLY, POLITICALLY AND STRATEGICALLY

[Correspondence of the Chicago Republican]

APRIL 12, 1870

The landing of the first missionaries among the Hawaiians in 1820, is not beyond my own recollection. Some of the first who returned from those heathens were guests in the home of my childhood and told me of their voyage well nigh a year long to the distant barbarous isle. But I have lived to land on those farthest shores washed by the farthest sea, in only eighteen days of travel from Chicago. I expect to live until I see that utmost corner of the West annexed to us, perhaps by the name of the Sunset State and then I expect to live a good while after that

But why is such an annexation to be expected? Partly because the Sandwich Islands are to a great extent Americanized already. Whatever of religion and culture they have, they owe to American missionaries. Those missionaries were the pioneers, and no others are worthy to be named with them in number energy intelligence moral power or spiritual success. It is true that a knot of fanatics in England self styled Reformed Catholics, some years ago sent emissaries to Honolulu—but their enterprise has proved a failure. They have made no great impress on either on the Catholic or on the Reformed Churches and their own name has been perverted in popular speech into *Deformed* Churches

The Yankees had been preaching in the Islands nearly twenty years before the first Popish priest arrived there. At that time a French ship of war compelled the natives to admit Catholics and cognac gin and Jesuits both at once. The Gallic idea seems to have been that

> Bombshells grape and powder and ball
> Are good will's strongest magnet

No wonder it proved a vain imagination no less than the dream of a Frankish empire in Mexico. Catholic pictures, vestments processions and ceremonies are undeniably captivating to tribes in the pupil stage of culture and so Catholic converts have not been wanting accordingly. To the spells of many Catholic teaching has been best suited. Nevertheless the French are in ... and ... compared to Americans. They teach no French in the schools but rather English which ... than we they call *A*... They have sought to win favor by building their cathedral on the model of the American church ... the Egyptian magicians imitated the miracles of Moses. In the same spirit they have ... to all the American newspapers, ... attempt reminds one of the frog laboring to swell as big as a bull

But if the religion of the Islands is American in type, the educational influences there are still more so. Compared with the American schools ... others ... than a drop ... bucket

Again the children of our missionaries inherit the land. If their fathers gave up all for Christ, ... the children have received far more than their parents renounced. One of them is to-day Governor of the largest island. Another would last year but for his youth have been Chief Justice. Further four fifths of the business capital in Honolulu is said to be in the hands of Americans. The town owes its prosperity—I had almost said its existence—to the patronage afforded it by whale ships nine tenths of which are American. The staple export is sugar, most of which is sent to our Pacific slope. I saw some of it last July in Salt Lake City. Hawaiian fruits also have no market except along our Western shores. They are too good to keep while transported any further even though borne on wings of the wind yes of steam and fire

The imports of the islands no less than their exports draw them to us. Their window sashes come from Boston, their lumber from Oregon their flour from California.

The policy of our Government is likewise such as to attract the Hawaiians. We pay an annual bonus of $75 000 to induce a steamer to go thither but we subsidize none to ply elsewhere for so trivial returns. We thus give the Kanaka the only chance they have of stated communication with any quarter of the earth. We maintain a Minister Resident among them but in no other State so small. We have refused to allow their sugar to enter San Francisco free knowing that whatever burden we take off from Kanakas we must lay on Kansas men. But this refusal is not repulsive. Raising sugar is now a living business on the islands, but no cane-grower is too stupid to see that his gains would forthwith double if he could escape the three and a half cents which our tariff exacts on every pound of sugar, or is ignorant that that tax will end the day that annexation begins

But why was not annexation consummated long ago? Tendencies do not at once become effects, yet union with us would have already taken place but for the superstitious Hawaiian reverence for the royal family. Underrating that childish loyalty Dr Judd, at first a missionary physician—and then long Prime Minister—attempted to bring the Islands into the Union prematurely. His scheme would have succeeded had there been no brood of kinglets in the way. There will soon be none. The present king is the last of his line. He is unmarried. There is everybody for Brigham but nothing for Kamehameha. When urged to take a wife, he may well reply, "Whose wife shall I take? The only woman whom, according to Kanaka heraldry he can properly wed is his brother s widow, and she has twice refused him. His scepter's grasped in an unlineal hand, no son of his succeeding." The only remaining scion of the blood royal is Prince Bill—a youth of such habits as must bring him to an untimely grave. He might be towering in pride of place he is now hawked at and killed by groveling indulgences. Hawaiian annexation is not to be looked for while the present King survives. One of those Yankees who shake hands with a monarch on his throne and think it kindness to his majesty lately talking on this matter with the Pacific potentate was asked how much Grant got a year. When he had answered, the sovereign replied "I get more than that—yes, twice as much." It is clear enough that the gamboge grandee would gain nothing by turning republican. But the more he gets, the more sure it is that his people, on his demise, will vote royalty too expensive a luxury for them to afford, and think it time for the dog to wag the tail, instead of the tail the dog

Much of the rule of his present Majesty has been suited to shake native faith in the divine right of Kings. A previous monarch had granted his subjects a constitution, but when the existing prince became heir to the throne, he refused to take the constitutional oath, and issued a hand bill that he was making a new constitution more to his mind, and, through this revolution by posters struck a *coup d'etat* impudent for Louis Napoleon. While I was in Honolulu, he was busy fishing up anchors which had been lost by ships in the offing and it was a common saying there that he was the very man to look for anchors, since he had none, none at all, in the hearts of his people. The Hawaiians there, as I cast their horoscope, will ere long be like the *Ava*, to us

> Rapidly as comets run
> To the embrace, of the sun"

But are their islands worth taking? Yes, every way. Whatever England and France agree in praising, you may know to be indubitably estimable but both those empires have done their best to gain the good graces of the Hawaiians. Yet they will be of more value to us than to England or France

We want them for sugar islands—to sweeten all our Pacific slope. We want them as a whaling station for they are in that regard a point that beats the world, and we are not only a whaling great nation, but the greatest of whaling nations, while whaling is just now on the eve of a more magnificent development than has ever been known. We want them as a distributing centre for manufactures which will soon be called for throughout the communities that will speedily emerge into civilization in the Polynesian and Micronesian Archipelagoes. We want them

> To give the pulse the products of the sun,
> And knit the unsocial climates into one "

Again as soon as the Panama isthmus shall be cut through and the "ocean barred at Darien" shall be loosed from its bonds, the Hawaiian Islands—midway between the Isthmus and the gorgeous East—will be the grand coaling station for the steamships of all the world, and hence as useful to all ships whatever as they now are to whalers. Vessels which can bear costly freights, will not cumber themselves by carrying their own coal. The Suez success, halving the distance between all commercial emporiums, necessitates, and will hurry on faster and faster an analogous Western achievement.

The newly elected Democratic Mayor of Adrian, Michigan said in his speech of the 7th inst, the occasion of the celebration of the Fifteenth amendment. He had not been one of those who had labored to bring about the great event which this occasion celebrates. He had honestly opposed it, but he had become satisfied that this opposition was induced by prejudice resulting from a life-long education. He was convinced that there were colored men before him fully as capable of voting intelligently as he himself and when he honestly asked himself why he should object to their voting he could find no reason other than the prejudice he had entertained against them and this was no reason."

A correspondent of the *Bulletin*, writing from Salt Lake, expresses the opinion that the Mormons will make no resistance to the Cullom bill, but that a test case will be made up without delay and the matter submitted forthwith to the Supreme Court. Young has no idea of venturing upon anything in the shape of violence but that he is determined to remain in Utah if strategy can effect his purpose. It would seem that he relies more upon the "laws, delays" than upon his twenty thousand fighting men and therein he is probably wise

The celebration by the colored people of the adoption of the Fifteenth Amendment was pretty general throughout the country. Everywhere they turned out in large numbers and nowhere have we heard of any disturbance in connection with their demonstrations. The respectful demeanor of their Democratic enemies is something to be commended

A dispatch from Santa Fe says. A correspondent of the *New Mexican* writing from Pinos Altos says that the White line discoveries are nowhere to the mining excitement prevailing there at present. All the roads are lined with people traveling to the new discoveries eight miles south of Barney Station New Mexico

THURSDAY MORNING MAY 5

A Scheme to Ruin Portland—A New Bugbear

For recklessness of assertion and rage of defamation on the leaders of the Oregon Democracy under the repudiation [illegible] certainly have no equals Misrepresentation and scurrility are their chief weapons Nothing is too extravagant for them to assert The fountain of vituperation in them is exhaustless and caring nothing for moderation candor or truth they proceed as if with a settled purpose of making the audacity of their misstatements outface known facts and silence the voice of reputation We have an illustration of this in an article published in the republican organ of this city, which, with the elegance and suavity that distinguish those appointed to speak for the party entitled Ben Holladay's "Rat Hole" Proposition

We notice this article not because it contains an attack on Mr Holladay for he is probably abundantly able to take care of himself, but because it grossly misrepresents Senator Williams and the Republican party From it we quote

> The plan is to corrupt the elections gain control of the Legislature, send Blackmail Williams back to the Senate, and use the internal improvements to enslave the people in the interests of a few rich ones, and reduce the city of Portland to a state of ruin Ben Holladay now controls the east side railroad, and desires to control all the other roads For this purpose he has used his man Williams to defeat the west side enterprise and substitute in place of it a bobtail boomerang affair that satisfies no one but a few land grabbing members of the Blackmail Ring

If it were simply Mr Holladay's plan to get control of the Legislature and use it for his own purposes, all he would have to do would be to assist the Democrats in obtaining a majority in that body Were he disposed to do it he could then "run" the whole batch of them easily Do we not all remember how ready the late Democratic Legislature was to respond to his plans simply because the impression got out among the members that, as Mr Holladay was a man of wealth and engaged in a vast business enterprise it would be a great card for them to favor him? The assertion that he "used his man Williams to defeat the west side enterprise" is a miracle of audacious misrepresentation Is there a person in Oregon who does not know how the west side enterprise lost the original land grant? It was through the direct action of the late Democratic Legislature If Mr Holladay used any person or persons for that purpose he "used" the members of that bed rock Democratic body Is Mr Stout willing to accept the character the *Herald* would give him? Is Mr Trevitt willing to accept it? Mr Bellinger Mr Ford, and others, what have they to say? *They* are the gentlemen whose honor is thus impeached by the leading organ of their own party They gave Mr Holladay that land grant Why did they give it to him if it was not right for him to have it? Why did they put in his hands an instrument which their organ asserts is capable of being used to "enslave the people?" They supported Mr Holladay's enterprise as against the west side, and by their action in the case gave the east side road the standing it has acquired If it is founded on wrong and outrage, and is to become an instrument for the destruction of Portland, let Mr Stout and his political brethren answer for it. Senator Williams had nothing whatever to do with it He simply got an act through Congress to revive an expired land grant, and did not touch the controversy as between the two contending parties But Mr Stout and his political associates in the Legislature *did* engage in that controversy, and *did* decide it irrevocably against the west side enterprise Yet the people are now warned not to elect a Republican Legislature lest "Ben Holladay" may "run" it! Could impudence go further than to appeal on such a pretext to those interested in the west side enterprise?

If that land grant which is characterized in elegant speech as a "bobtail boomerang affair" 'satisfies no one but a few land-grabbing members *of the* Blackmail ring,' why did Congressman Smith speak and vote for it? It is true he tried to delay it, but it is also true that he supported it on its passage Is he a member of that "land grabbing Blackmail ring?" The chief organ has an extremely delicate way of complimenting leading members of its own party

And now we come to another part of this tirade of misstatement We quote

> The condition of the land grants also, for both east and west side railroads, was that the termini should be in Portland This objection to his scheme Holladay proposes to obviate by procuring the passage of a bill through the Legislature consolidating the city and county governments, so that the entire county would be included in the city limits. Thus, technically, the termini of all railroads would be in the city of Portland whether located within the present corporation or on the river below If the present Radical ticket is elected in Multnomah county, the legislators on it will vote for Williams for the U S Senate, and thus secure an influence at Washington, and will pass the consolidation bill and make it possible for Holladay to partially carry out his threat of reducing Portland to a rathole

First of all, let the fact be understood that the scheme of consolidating the city and county emanated entirely from another source It had its origin in this city, *with men who are connected with the west side enterprise* They were its prime movers, and this day are its most active supporters It is a scheme which is thoroughly hostile to the interests of the east side road. Can it be supposed that Mr Holladay would be desirous of uniting East Portland with this city, or of consolidating the city and county when he would thereby be taxed on an enormous amount of property on the east side of the river to support the Government of this city? Every reasonable person must know that he would desire nothing of the kind Looking to his own interest he would certainly oppose such a proposition with all the influence he could command The terminus of the east side road must, by the terms of the act be in this city and in this city it will be located But it is not necessary to build a bridge to bring the terminus here and we are informed that it is not now the intention to build one A ferry will be established at the lower part of the city—such a ferry as may be seen at innumerable places where railroads cross large rivers This will be a compliance with the act and will answer every requirement of business On this side there will be a depot and all the offices for the transaction of the business of the Company and the steamship line It was the intention once to build a bridge but the city thought it proper not to allow the railroad company to have control of the matter and on the petition of many citizens and at the instance of the Common Council, the act was passed by Congress in such a form as to secure to the city the right to erect and control the bridge Consequently the railroad is being extended to a point opposite the lower part of the city where a great ferry will be established It is well known that the project of consolidating the city and county is a movement that was started by citizens here without any view to railroad interests Petitions to be presented to the Legislature praying for such consolidation have been signed by men of both parties For ourselves, we have given some reasons to show why the scheme is impracticable The sole object of the movement is to try to do away with the system of double government and double taxation But this scheme originated by men whose only interests are in this city and who are known to have taken a leading part in advocating and assisting the west side railroad enterprise now comes out in the guise of a "plan started by Ben Holladay" to ruin Portland and people are asked to vote against the Republican Legislative ticket lest it may be consummated And this is the issue on which the opposition hope to carry Multnomah county! They know and admit that there is nothing in it but think it will be a good enough Morgan till after the election

We have shown that there is every reason why the capitalist who stands at the head of the east side railroad enterprise should oppose any attempt to consolidate the city and county or to bring East Portland within the corporate limits of the city But if he *should* desire to do so he could get that job done very easily by a Democratic Legislature, if we may judge from his success with the last one To conclude, we refer the *Herald* to Mr Stout for further information

Interpretations

There has been a general wrangle among the Democratic journals as to the true meaning and proper interpretation of their platform Some of them have held that "equitable adjustment" means a settlement on a basis to correspond with the gold value of the bonds at the time the debt was contracted, less the interest paid on "bonus," less also the taxes which the bondholders ought to have paid. By this process they supposed the debt would be reduced to nothing, and perhaps the bondholders would be brought out in debt to the Government Others have pronounced against this interpretation and declared that the platform does not mean repudiation or anything like it No agreement, however, has been reached as to the real meaning of the platform and the organs have ceased to agitate it through fear of injuring "the party"

It is singular, indeed, that any difference of opinion should arise as to the interpretation of a document that interprets itself The platform speaks more plainly for repudiation than the utterances of any who have undertaken to expound it. They who have been following the course of the wordy war between the "organs" on this subject have probably lost sight to some extent of the platform itself.

When we are told that a debt has been "increased more than two-fold by the venal illegal and unjustifiable terms of its contraction, and that it should therefore be subjected to a process of "equitable adjustment" what can the language be understood to mean? It can have but one meaning There can be no doubt or difference of opinion about it. The part alleged to have been fraudulently contracted must be lopped off and repudiated Therefore this platform does mean repudiation and can mean nothing else There was no difference of opinion about it among the Democratic orators when the platform was first adopted. This device of glossing it over and denying its obvious and only possible meaning was an afterthought which was adopted when it began to be apparent that unless something of the kind were done the platform would sink the party But the repudiators will find that so poor a device will not save them

Editorial Notes

The ticket nominated by the Democrats of this county is given in another column It strengthens the Republicans greatly, and very much increases their chances for carrying the county It is universally agreed that the Democrats have not by any means put up their strongest men

The public debt statement for May has not yet been telegraphed in detail, but according to the New York *Tribune* the reduction since April 1st amounts to $8,500,000 Another dose for the croakers And still another powerful argument for the Oregon repudiators to to prove that the debt can never be paid!

The bolters in Washington Territory to be consistent in their course, should read President Grant and the Administration out of the party since Mr Garfielde has their unqualified support, while the bolters who call themselves the "true Republicans" of the Territory, are kicked out of office and given no countenance whatever

It was the Democratic Council of this city which prevented Mr Holladay from building a railroad bridge And it is the Democratic organ of this city that now denounces him because he has not built the bridge. There seems to be something a little crooked about this, but doubtless it is perfectly in accord with Democratic principles

The Congressional Canvass

Messrs Wilson and Slater spoke at the Court House last night to a crowded house Mr Slater opened in an hour's speech in which he attempted to show that the Democratic party is in favor of internal improvements that no country is so taxed as this that the people are getting poorer and poorer that the laboring and producing classes pay all the taxes etc etc—the usual Democratic clap trap On the question of finance and repudiation he took the position that the issue of legal tenders was a ruinous policy that equitable adjustment is not repudiation and to show this he proposed as an equitable adjustment that Congress adopt the "ruinous policy" of authorizing the Secretary of the Treasury to issue legal tenders enough to redeem the outstanding bonds that the bonded debt should be paid off with this ruinous policy issue that to pay in coin would be a fraud would be inequitable treasonable and [illegible] that as the ruinous policy of issuing such a batch of legal tenders might have the effect to depreciate their value he would have the Secretary authorized to offer an alternative proposition of this sort: If the bondholder did not choose to take depreciated legal tenders he might at his option take a new bond at 66⅔ cents on the dollar or 50 cents or 40 cents on the dollar according as it might appear that legal tenders were worth upon the average the one figure or the other, compared with gold, when the original bond was purchased Thus if fifty cents on the dollar should be taken as an "equitable adjustment" whenever legal tenders should fall by reason of the ruinous policy of such an issue as contemplated, below fifty cents value, the bondholder would prefer to surrender his $1 000 bond for a new bond for $500 and when legal tenders should be above fifty cents he would prefer to take legal tenders This would be in Mr Slater's judgment "equitable adjustment" but not repudiation His general position was not very unlike his former one here or the position taken at first by the *Herald*, except that he would now pay the bonds in legal tenders, or in the alternative new bonds! He held that notwithstanding the late legal tender decision by the Supreme Court Congress can order the requisite issue of legal tenders He then devoted considerable time to the Constitutional Amendments declaring them void and that to enforce them would be unconstitutional and revolutionary He went over Georgia, and declared the decision of the Supreme Court sustaining the constitutionality of the reconstruction laws, bad law, and that the decision should not be regarded by the people of the United States The balance (and the heavier balance) of his speech was devoted to "niggers," Chinamen, the "white man" and kindred twaddle but without much visible effect upon the audience

In the hurry of this notice it would be impossible to do justice to Judge Wilson's speech He opened with a reference to the fact that while Mr Slater *professed* to favor internal improvements it was significant that the Albany platform did not in any way allude to the subject He then went on to show and to prove from the record that the country is indebted to the Republican party for all the great internal improvements which are now serving to develop so grandly the material interests of the whole country and particularly of the great West, that the Pacific railroad was given by the Republican party, that when the bill granting the right and the aid to build that great work passed the Senate, only one Democrat voted for it while every Republican voted for its passage, that the Republican party gave the poor men of America, the homestead law that when in 1862, that bill was pending, Oregon had two Democratic Senators and a Democratic Representative, two of these voted against the bill, while the other was absent He drew the more recent record of the Democracy on the bills to grant aid to Oregon railroads, showing that the Democrats in the Senate voted unanimously against the Portland, Astoria and McMinnville railroad grant, and that the only opposition to the bill in the House came from the Democracy He next drew a comparison between what our present Republican Senators had done and are doing for Oregon, and the nothing which their Democratic predecessors had done. He fastened (also from the record) the responsibility for Chinese Immigration upon the Democracy He then went through in the most thorough style the repudiation platform and theory of the Oregon Democracy On this point, his argument was clear, searching severe and so conclusive as to show to the dullest comprehension, the enormity and villainy of the Albany platform proposition He followed Mr Slater's argument with an analysis so severe and cutting as to raise frequent and enthusiastic outbursts of applause, which seemed to come from almost the entire mass of people It is out out of the the question to give here, any just synopsis of this portion of his speech It must suffice to say that the Judge made a most excellent argument and so riddled the Albany concern as to not only surprise his friends but to astonish the friends of Mr Slater He was the aggressive party all the way through while Mr Slater, even in his opening speech was constantly on the defensive and appeared constantly to be making an effort to apologise for his platform and party, to palliate and explain If this meeting was not a great success for Judge Wilson it is difficult to understand what would be a success It is clear enough that the Judge has "caught Mr Slater" and that Mr Slater don't like it.

In reply to an inquiry by the Assessor of the Twelfth District of Illinois "whether no relief can be granted to a class of persons who being members of the Legislature members of the Constitutional Convention etc receive hardly sufficient compensation to pay their hotel bills?" the Commissioner of Internal Revenue writes that he is of opinion that hotel bills incurred by persons traveling for the prosecution of business or by persons temporarily residing in hotels while prosecuting business away from home and actually paid during the year for which the return is made should be regarded as business expenses, and as such deductible from income"

Evans, a man convicted of petit larceny and confined in the Eugene jail escaped last week by cutting a hole through the ceiling and then making a hole through the wall

By a recent order, all lands within twenty miles of the route of the Oregon and California Railroad, as far south as Roseburg are withdrawn from market and all odd sections within thirty miles are reserved as indemnity lands to the railroad company

The Gubernatorial canvassers are on their return route to this valley In consequence of the illness of Mr Grover the party did not cross the mountains from Baker to Grant county Their further appointments to speak will be found in another column

The Roseburg *Ensign*, of the 20th ult says Work on the Coos Bay Wagon Road was commenced on Monday at a point ten miles from this place The work will be prosecuted each way from the point of commencement, till a distance of twenty miles is completed

Two and three dollar diggings are reported to have been recently "struck" in the Myrtle creek district These mines will last only till election, and none but Democratic voters will be able to pan out the two and three dollars per day We advise our Republican friends to look out for that district

A private letter from Gardiner City informs us, says the *Ensign* that the schooners *Enterprise*, *Bobolink* and *Anne* crossed the bar last week bound down the coast heavily loaded with lumber The *Swan* is running between Gardiner and Scottsburg The Gardiner mill is running regularly and making lumber fast

The Premium List just issued by the State Agricultural Society shows that the proceeds of the last State Fair with balance on hand amounted to $11 619 36 paid out including Treasurer's per cent, $9 771 03 balance on hand, $1 848 33 The premiums on different classes of cattle amount to over $1 500 those on horses to over $2 000 Sheep raisers will receive over $600, and those who exhibit hogs nearly the same amount Poultry amounts to $161 and grain in the field and by specimen $639 Oregon manufactures over $1 000 There are liberal premiums also, offered to exhibitors of agricultural implements and machinery articles of domestic manufacture, fruits garden products flowers, mining and art products etc etc

The *Statesman* says On Friday night last the residents of the northern part of town witnessed a shower that was at least, remarkable, and so far has not been explained It was raining hard at the time with little or no wind when a peculiar substance was discovered to be settling down with the rain In color and appearance it resembled flour of sulphur and some who tasted it pronounced it to be that substance but Mrs J O Carr showed us that such was not the case she collected a quantity which was floating on the water caught in a barrel and putting it on the fire it burned without any of the sulphur fumes This strange shower continued for an hour or more and fell in such quantities as to be plainly seen on sidewalks and floating on all the standing water

The OREGONIAN is very much rejoiced over an election held in Oregon City in which the Republican ticket was successful It was so much excited that it forgot itself and magnified the majority from thirty five as announced in its telegraphic columns to fifty five as announced in its editorial column It ain't very particular what it says This morsel is from the *Herald* That paper when it speaks of the OREGONIAN would oblige us by adhering to truth The majority, thirty five announced in our telegraphic columns was probably the one aye majority for the ticket and We distinctly stated in our editorial columns on authority of a private telegram that the highest majority received by any candidate was fifty five The *Herald* ain't very particular what it says

Caution —Audacious Counterfeit!

The reputation which for many years has attached to Hostetter's Stomach Bitters as the STANDARD TONIC OF THE AGE and the demand for the article not only in the United States but elsewhere have provoked the cupidity of the counterfeiting tribe and it has been extensively simulated and imitated by unscrupulous sharpers The most dangerous counterfeit of said article which has been attempted has recently come to our knowledge The engraved steel label on bottles containing the genuine bitters with its beautiful vignette of St George and the dragon [illegible] containing a warning against counterfeiters and its note of hand for "one cent" at the foot signed with our firm name has been copied so closely that the fraud can only be detected on a minute inspection The dark label is also well counterfeited and the word [illegible] the imitation and the genuine [illegible] precisely the same the difference being simply in the execution of the work that of the imitation being somewhat coarser than the genuine Other counterfeits are in the market which are in all particulars the same as described above with the exception of a slight difference in the spelling of our name

In addition to the above these counterfeiters have gone a [illegible] as to paste a strip of paper over the cork and fasten to the neck of the bottle on which is a vignette and otherwise printed to resemble the general appearance of our proprietary U S Revenue stamp [illegible] four cents [illegible] United States Internal Revenue all of which together [illegible] genuine [illegible] The public are therefore especially warned against these new counterfeits and are advised to purchase Hostetter's [illegible] the above [illegible] The genuine is sold [illegible] *the exclusively* [illegible] HOSTETTER & SMITH

REPUBLICAN PLATFORM

The Union Republican party of Oregon in Convention makes this declaration of its principles and policy

1st Unfaltering devotion to the Union first last and forever and unwavering fidelity to the Constitution and its amendments and to the laws of our National Legislature

2d We wholly approve the principles and policy of the administration of President Grant as carrying into practical application the principles for which we have successfully striven And we particularly commend these points in his Inaugural Address wherein he declares— let it be understood that no repudiation of one farthing of our public debt will be trusted in public places and it will go far towards strengthening a credit which ought to be the best in the world and I would protect the law abiding citizen whether of native or foreign birth wherever his rights are jeopardized or the flag of our country floats and I will have a policy to enforce against [illegible] the people

3d We have confidence that the Administration will wisely and firmly protect the interests and sustain the dignity of the Nation in respect to other nations and especially with regard to our just claims against Great Britain

4th We denounce all forms of repudiation as a national crime —and the national honor requires the payment of the public indebtedness in the uttermost good faith to all creditors at home abroad not only according to the letter but the spirit of the laws under which it was contracted And for this purpose we favor a strict economy in the Administration of the National Government and the application of such payment of all surplus revenue from whatever sources derived and that taxation should be equalized and reduced as rapidly as the national faith will permit

[illegible] We make no distinction between [illegible] whether of foreign or native birth and that we sympathize [illegible] with men of [illegible] all [illegible] struggling for self government

6th That we are [illegible] to any change [illegible] naturalization law [illegible] to [illegible] citizenship any foreigners [illegible] entitled thereto under said laws

[illegible] We favor a judicious system of [illegible] and river improvements [illegible] to develop our resources and invite settlement [illegible] our unoccupied territory [illegible] urge that Congress should make liberal grants [illegible]

[illegible] We are in favor of a tariff for revenue with such discrimination in favor of home [illegible] manufactures as will [illegible] its efficiency for the purposes of revenue

9th We [illegible]

[illegible] We are in favor of [illegible] education and are [illegible] the common school funds of the State to any other purpose than the support of common schools

11th We recognize in the Union Republican party the measures and men who saved the Government from destruction and that its continuance in power is the only sure safeguard to national peace and prosperity And with this platform we appeal to the voters of Oregon for their suffrages and support

Another Last Ditch.

[From the Missouri Democrat

While the negroes in all parts of the country are [illegible] over their new political [illegible] and are quietly preparing to exercise the rights of citizenship with which they are [illegible] fully invested, it appears that some [illegible] Democrats are not quite willing to give up the contest yet. We adverted a few days since to the action of the county clerks in California who have refused to enroll colored men as voters and who are sustained in their course by the Democratic members of the Legislature of that State. And now we learn that at a city election held a few days since in Circleville, Ohio, the Democratic judges in control of the polls refused to receive the votes of colored men on the ground that the ratification of the Fifteenth Amendment was not yet decided to be legal.

These sporadic outbursts of Democratic malignity are really amusing. The earnestness of the old lady who persisted in trying to sweep the Atlantic ocean from her back yard with a hand broom was nothing compared with the earnestness of the Democratic party. Its vitality is something curious and fearful to behold. It reminds us of some species of verminous reptiles which, after they are cut in two and hacked in pieces, still kick and twitch and wriggle with their multitudinous legs as violently as ever. Think of it, what noble devotion to principle is exhibited by these California clerks and Buckeye Bourbons. They are determined to support the the "time honored principles" to the last. They intend to prove that the adage "revolutions never go backwards" is a lie or a mistake. They are wiser than we, they look higher and see further. They see that the times are out of joint, that humanity is progressing the wrong way, that the Federal government has made a great mistake, and that the American people do not know their own minds. Therefore they propose to rectify everything by refusing to carry out the Fifteenth Amendment. Happy California, thrice happy Circleville, to possess such patriots. These are regular never-say-die Democrats. They will never surrender so long as there is a shot in the locker. Their names should be preserved and handed down to posterity as men who were willing to save their country from the terrible blunder of dealing out equal and exact justice to all men, and of establishing universal liberty.

It will be interesting to note the result of such fatuous proceedings. Possibly the Democratic party, already so beloved by the colored voters, may by this course become still more endeared to them. There are about 800 negro voters in California, a good many thousand in Ohio, and over eight hundred thousand in the Union. What a remarkable thing it would be if the Democratic party should gain this whole vote by keeping up the fight against the colored people. We shall see.

The End of Repudiation

[From the Chicago Republican April 16.]

If we may be permitted for once to use a very forcible bit of rural slang, repudiation is petering out with delightful rapidity. Even at the West, where it was strongest, it is now at the last gasp. There was a time when the attitude of Ohio on this vital question gave no little uneasiness to thoughtful and sagacious men both in public and private life. But the brief delirium passed away as quickly as it came. The only repudiation now in vogue in Ohio is the repudiation of "Young Greenbacks" and his pernicious heresy.

In the Tenth Congressional District the Democrats recently put up a very able and popular man by the name of Hill. Mr Peck, the Republican candidate, beat him by twenty-seven hundred votes. The Cincinnati *Enquirer*, irreproachable Democratic authority, explains this overwhelming defeat of the excellent Hill as due to the fact that the convention which nominated him passed a resolution to the effect that the bonded debt ought not to be paid.

Just after the close of the war, President Woolsey, of Yale College, expressed the opinion in his lecture-room that the country had a greater danger to face than the one which it had just escaped, and added impressively, that the word "repudiation" had more peril in it than the word "secession." He was both right and wrong. He was right in predicting the birth of a repudiating party, and he did not exaggerate in the least the evils which would result in the success of that party. He was wrong in underestimating the sterling honesty of the American people, and in not taking into account the rapid increase of the national wealth. Whatever danger there was at any time is now safely passed. The American Republic has known how to preserve its territorial integrity without sacrificing its honor. Its bonds have reached and passed par. Its credit abroad is daily becoming better. Mr Boutwell's confidence that it will be easy to fund the debt at a reduced rate of interest, is shared by such eminent foreign financiers as Bowles, Brothers & Co., of Paris. We translate from one of their recent circulars:

"Already the most sagacious and richest banks in England and on the continent are beginning to loan or accept on the Federal bonds. Their example is certain to be rapidly followed, and the public will soon learn to appreciate at their just value the securities of a State which, while offering every advantage to capitalists now offered by France, England, or Russia, is removed by its geographical position beyond the sphere of European convulsions."

Alfred G. Townsend thus piquantly pictures a young Texas Congressman:

Conner is a blue-eyed boy of genius from Indiana, scarcely up to the constitutional age of a Congressman, with a smooth face of molten brass, high cheek bones, sandy white hair and a look where desperation, vanity and impudence appear in three equal parts. Altogether a green Indiana boy, who went into the army, was celebrated for his precocious ferocity, became the pet of these ravenous Texans, who were delighted to see that the North could beat them in their own specialties, and sent him to Congress with the delight of a tribe of Indians sending a live panther to their Great Father.

The Canadian papers have a theory, which is not so very bad, that the current rumors of a Fenian raid are started by the hired enemies of the Dominion in order to divert attention from the Red River. They assert that the Fenians themselves are co-operating with the Red River insurgents and hope by threats of another raid to prevent the departure of troops to the support of Governor McDougall. If this be true, the device seems to have succeeded, for it is stated that the warriors of the Dominion are to be sent to the New York and Vermont border. Meanwhile the Fenian movements continue, though their objective point is as uncertain as ever.

Immigration to all parts of the West is extremely brisk this season. Great numbers are leaving Pennsylvania, Ohio and Indiana, in search of new fields to locate, and the movement of the American population is even greater than the foreign arrivals. The extension of new lines of railroad, opening up vast tracts of new lands, and the depression in business, is one of the great inducing causes. The great American desert of which we formerly heard so much is like the mirage on the plains—it recedes as population advances, and has not yet been overtaken.

The colored people of Louisville, Ky., are exhibiting signs of remarkable thrift. During the month of March over seventy colored depositors opened accounts with the bank of the Freedmen's Saving and Trust Company, and have deposited over $25,000. With the ballot in their hands and their savings in bank, they will add to the political strength and to the productive powers of the add to the political strength and to productive country more than was dreamed of in the ancient days of Judge Taney.

The Cleveland *Leader* says:

"When the women conventions shall be purged of feminine men who wear ringlets and part their hair in the middle and speak in a falsetto voice, and of masculine women who don trousers, crop their hair short and talk slang in deep bass, they will command more respect." Well, not to put too fine a point upon it, we should say that when the said conventions are thus purged there will be no such conventions at all. That's "where they live."

THE FIRST AMERICAN FLAG.—At a meeting of the Pennsylvania [illegible] Mr Wm. J. Canby read a paper on "The First Star Spangled Banner Made in America, and Who Made it." He discovered in tracing the history of this national emblem that the first [illegible] when the Stars and Stripes were unfurled was at the siege of Fort Schuyler, August 17, 177[illegible], and upon an occasion just about one year prior to that time. The brig Nancy was chartered by the Continental Congress to procure military stores in the West Indies during the latter part of [illegible]. While at [illegible] in July [illegible] the ensuing year the [illegible] no battle [illegible] colonies had declared their independence, and with this information came a description of the flag that had been adopted as a national banner. A young man, Captain [illegible] Mr [illegible] set to work [illegible] one [illegible] successfully accomplished [illegible]. The flag was unfurled and saluted with thirteen guns. When the brig Nancy was on her return voyage she was hemmed in by British vessels off Cape May. Her officers succeeded in removing all the munitions to the shore, and when the last boat put off a young man named John Hancock jumped into the sea, swam to the vessel, run up the shrouds of the mast, and securing the flag, brought it triumphantly to the shore through a hot fire from the British [illegible] war.

The first American flag, however, according to the design and approval of Congress, was made by Mrs Elizabeth Ross. Three of her daughters still live in our vicinity to confirm this founding their belief, not upon what they saw, for it was many years before they were born, but what their mother had often told them. A niece of this lady, Mrs. Margaret Boggs, aged 9[illegible] years, now lives in Germantown, and is conversant with the fact. The fact is not generally known that to Philadelphia not only belongs the honor of flinging the first star spangled banner to the breeze, but to a Philadelphia lady belongs the honor of having made it.

The house in which it was made still stands—No. 239 Arch street (the old number being 89)—the last of an old row. It is related that when Congress had decided upon the design, Colonel George Ross and General Washington visited Mrs Ross and asked her to make it. She said, "I don't know whether I can, but I will try," and directly suggested to the gentlemen that the design was wrong in that the stars were six cornered and not five-cornered as they should be. This was corrected, she made the flag, Congress accepted it, and for half a dozen years the lady furnished the Government with all its national flags, having, of course, a large assistance. This lady was also the wife of Claypole, one of the lineal descendants of Oliver Cromwell.

The Democratic papers oppose bitterly the bill recently introduced into Congress providing for free schools in all the States. Education of the masses is necessary to the prosperity and perpetuation of popular government, but it is also incompatible with the supremacy of the Democratic party. *Hinc illæ lachrymæ*. It is doubtless unfortunate that all the States are not sufficiently in accord with the age to maintain a public school system themselves, and that the General Government is obliged, therefore, to either institute a national system or incur the risk of ultimate disintegration through the utter ignorance of the suffragans in one-third of the Union. The bill proposed, however, is not intended to disturb the free school system now established in most of the States, such States being excepted from its operation. Its effect therefore, will be simply to shed a flood of much needed light in the States which were in rebellion, and in a few others which might almost as well have been.

A scientific expedition to Brazil has been organized by the Cornell University. The geologist of the party will be Prof. C. F. Hartt, the assistant of Agassiz in the latter's exploration of the Amazon region. The botanist is to be Prof. A. N. Prentiss. A number of students attached to the College of Natural Science in the Institution will take part in the expedition, the chief object of which is to make collections for the University museums. With the view of affording the explorers every possible facility, instruction in the Portugese language has been given during the past term, to such members of the University as intend to accompany the party. The expedition will sail at the close of the spring term, and will spend some four months in Brazil, passing through the extensive region lying between Rio Janeiro and the Amazon, collecting botanical, geological, and zoological specimens. The Brazilian Government has promised its aid and furtherance, in every possible way, to the expedition.

FINANCE AND COMMERCE.

PORTLAND, Wednesday, May 4, 1870.

No gold quotations to day.

Legal Tenders steady at 87½c.

Trade very quiet to day, no department showing anything like activity. It has now been several days since business has shown anything like the healthy activity seen during nearly the entire month of April, yet merchants seem to be as confident as at any time that the aggregate for the spring and summer trade will be wholly satisfactory. We have no changes in quotations to note to day.

Flour is coming down the river a little more freely and the same may be said of bacon, but the entire receipts of produce are still inconsiderable compared with last month. The steamer to sail on Friday, like her predecessor, will go away with little more than half a load. There has been no time within the last two years when shipments were so light as now. As the [illegible] the country cannot now be large, the freighting business must be for two or three months quite unremunerative.

Regarding matters in the interior, we have the following paragraphs:

The Eugene *Guard* says: Trade is [illegible]. Money seems to be a little easier, though complaints are still [illegible] frequent, owing to the difficulty of collecting old accounts. The credit system has heretofore been too much [illegible] with our traders, and this system will have to be corrected to some extent before business can be transacted on a safe basis. The steamer *Echo* arrived at our landing last Saturday, bringing a considerable amount of freight for our merchants, and returned with a large freight of produce from our landing. The boating season will soon be at an end on this part of the river, and produce is being rapidly sent forward. Bacon is still in good demand, lard has advanced, with but little in the market. The [illegible] movement in grain [illegible].

The [illegible] paragraphs are from the Dalles *Mountaineer*:

Mr Isaac Violett, of [illegible] the North Fork of John Day river, called on us yesterday. He [illegible] everything in that section of country as being in a [illegible] condition. New settlers are arriving there daily. The weather during the past winter was excellent and the cattle have wintered through it in good condition. The trail, by way of Leonard's Bridge, is in excellent condition, the snow having all passed off some time ago, leaving it perfectly dry. Mr Violett met four families going in as he came out.

We have news from Grant county this week. The miners in all the camps are hard at work hydraulicing and ground sluicing their claims while water is abundant, which is the case at present. The roads between Dalles City and Canyon City are in a passable condition, but rough, probably something better than ever before at this time of the year. The road from Canyon City to Snake river is not [illegible] yet, but will be in a few weeks. The [illegible] of all kinds and cattle and horses are doing well. Everything indicates a prosperous year for the miner, stock raiser [illegible]. Oats are [illegible] barley at 2 cents.

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

623 KEARNY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of years standing and Ulcerated legs successfully treated.

Horrible Disease.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences or from virus absorbed into the system. Look at their pallid emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases a special study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them, nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. For Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who, with bogus sworn to certificates, dupe the unwary. Some of the self styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco, and their places are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes in it, but you will find their [illegible] occupations in it. Look at the Directory for 1867 and 1868. The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them, until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patent letters, etc. Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he professes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial (Private Entrance on Commercial), San Francisco. Post Office Box 957.

REMEMBER TO PUT BOX 957 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the Daily *Oregonian*.
